## PREAMBLE

The International Paralympic Committee (IPC) is the global governing body for the Paralympic Movement and IPC Athletics is a brand of the IPC.

The IPC Athletics Rules & Regulations 2010-2011 have been developed to be used in conjunction with the 2010-11 IAAF Competition Rules to conduct IPC Athletics Recognized Competitions including:

- 1) IPC Competitions i.e. Paralympic Games and World Championships
- 2) IPC Sanctioned Competitions i.e. World Circuits or Series
- 3) IPC Athletics Approved Competitions i.e. National and International, IAAF or National Federation (NF) Endorsed

This document:

- Overviews the Rules and Regulations which govern an IPC Athletics Recognized Competitions
- Is designed by the IPC to be compatible with the Rules and Regulations of the International Association of Athletics Federations (IAAF)

The alignment of this document with the 2010-11 IAAF Competition Rules does not confer any responsibility onto the IAAF for the IPC Athletics Rules & Regulations. For IPC Athletics matters any references in the 2010-11 IAAF Competition Rules to the:

- “General Secretary of the IAAF” should be amended to “Sports Manager of IPC Athletics”
- “IAAF” or to the “Council of the IAAF” should be amended to “IPC” or “IPC Governing Board”
- “Competitions organised under (IAAF) Rule 1.1” should be amended to “IPC Athletics Recognized Competitions”.

A key feature of this document is the clarification of the exceptions to the Technical Rules of the 2010-11 IAAF Competition Rules contained in Chapter 5. These exceptions apply to all events for Athletes with a Disability incorporated in IPC Athletics Recognized Competitions.

Other documents that are integral to the implementation of the IPC Athletics Rules & Regulations 2010-2011 are the:

- IPC Handbook
- IPC Anti-Doping Code
- IPC Athletics Classification Rules and Regulations
- IPC Classification Code
- IPC Athletics Eligibility Requirements
- IPC Code of Ethics

This edition of the IPC Athletics Rules & Regulations will be current from the date of release until the publication of the next edition after the 2011 Christchurch IPC World Athletics Championships. The publication of the next

edition of the IPC Athletics Rules & Regulations will be publicised on the IPC Athletics website and circulated to the IPC membership. The next edition will affect the period to include the 2012 London Paralympic Games.

## **2 CHAPTER 2 - ELIGIBILITY & CLASSIFICATION**

### **2.1 IPC Athletics Eligibility Requirements**

IPC Athletics Eligibility Requirements apply to the following IPC Athletics Recognized Competitions:

- (a) Paralympic Games
- (b) IPC Athletics World Championships
- (c) IPC Athletics Regional Championships
- (d) IPC Athletics Sanctioned Competitions
- (e) IPC Athletics Approved Competitions - International or National competitions for Athletics with a Disability and IAAF / NF Endorsed competitions.

Information regarding Eligibility Requirements will be outlined in the respective competition documentation.

Note: An athlete must be 14 by 31<sup>st</sup> December in the year of competition to compete in an event.

### **2.2 IPC Athletics Classification Requirements**

In addition to meeting the IPC Athletics Eligibility Requirements, in order to compete in the above competitions an athlete must also have been assessed by an IPC Athletics Classification Panel to:

- (a) Determine whether or not they meet the IPC Athletics Minimal Disability Criteria (MDC); and
- (b) If they meet the IPC Athletics MDC, to determine their:
  - (i) IPC Athletics Class; and
  - (ii) IPC Athletics Classification Status as either Review (R) or Confirmed (C).

For detailed information regarding the current IPC Athletics Classification Rules and Regulations refer to the IPC Athletics website: <http://ipc-athletics.paralympic.org/Classification/>

### **2.3 Entering Athletes with a New (N) status**

Athletes who have not been assessed by an IPC Classification Panel can be entered in the competitions identified above in section 2.1 (b)-(e) with an IPC Athletics Classification Status of New (N) providing:

- (a) They meet the relevant IPC Athletics Eligibility Requirements and IPC Athletics Athlete Licence Requirements

- (b) Have achieved the entry standards (where applicable) for the respective event or events they intend to enter in their “potential” Class in accord with requirements stipulated by the Local Organising Committee (LOC).

Note: It is not mandatory for IPC Athletics Classification to be offered at every IPC Athletics Recognized Competition. One of the objectives of IPC Athletics is to minimise or, if possible, eliminate IPC Athletics Classification at the IPC Athletics World Athletics Championships and the Paralympic Games. Achieving this objective will require a coordinated approach to improving access to IPC Athletics Classification opportunities away from these major competitions.

#### **2.4 Eligibility Requirements at IAAF / NF Endorsed Competitions**

Athletes with a Disability competing in events incorporated in IPC Athletics Approved IAAF / NF Endorsed Competitions must meet:

- (a) The eligibility requirements contained in the Chapter 2 of the 2010-11 IAAF Competition Rules; and/or
- (b) Any variations of these requirements stipulated by the Local Organising Committee (LOC) and/or overseeing Federation.

### **3 CHAPTER 3 – ANTI-DOPING - MEDICAL SERVICES - TECHNOLOGY AND EQUIPMENT**

#### **3.1 Anti-Doping**

##### **3.1.1 IPC Anti-Doping Code**

The IPC Anti-Doping Code (IPC Handbook, Section 2, Chapter 1.2, [http://www.paralympic.org/IPC/IPC\\_Handbook/](http://www.paralympic.org/IPC/IPC_Handbook/)) applies to the following IPC Athletics Recognized Competitions:

- (a) Paralympic Games
- (b) IPC Athletics World Championships
- (c) IPC Athletics Regional Championships
- (d) IPC Athletics Sanctioned Competitions

##### **3.1.2 Anti- Doping Requirements at IPC Approved competitions**

The Anti-Doping Code of the respective overseeing federation applies to events for athletes with a disability in:

- (a) IPC Athletics Approved Competition – International and National competitions for Athletics with a Disability and/or
- (b) IPC Athletics Approved Competition - IAAF / NF Endorsed Competitions

The IPC Athletics Approved Competition application process requires:

- (a) As a minimum deterrent, random in-competition anti-doping testing, and
- (b) That the respective competition will be conducted in accord with World Anti-Doping Authority (WADA) Anti-Doping Code and International Standards applicable to the Federation endorsing the competition.

##### **3.1.3 IPC Eligibility Code Anti-Doping Requirements**

All IPC Athletics Licensed Athletes have signed the IPC Eligibility Code which states that they will “not take any substance or use methods prohibited by the IPC Anti-Doping Code” (IPC Eligibility Code, item 7).

## 3.2 Medical Services

### 3.2.1 Competition Medical Services

With the exclusion of the anti-doping related sections, the provisions set forth in the IAAF Competition Medical Handbook (<http://www.iaaf.org/medical/info/index.html>) apply to the IPC Athletics Recognized Competitions.

### 3.2.2 Medical Delegate

The decision by the IPC appointed Medical Delegate shall have the final authority on all medical matters.

### 3.2.3 Autonomic Dysreflexia and “Boosting”

Any deliberate attempt to induce Autonomic Dysreflexia (i.e. “Boosting”) is forbidden at IPC Athletics Recognized and Approved Competitions.

The IPC Position Statement on “Autonomic Dysreflexia and Boosting” (IPC Handbook, Section 2, Chapter 4.3, [http://www.paralympic.org/IPC/IPC\\_Handbook/](http://www.paralympic.org/IPC/IPC_Handbook/)) applies to all IPC Athletics Recognized and Approved Competitions.

### 3.2.4 Gender Verification

The Medical Delegate, in accordance with IAAF Rule 113, at the Paralympic Games, IPC Athletics World Championships and IPC Athletics Regional Championships, has *“the authority to arrange for the determination of the gender of an athlete”*.

## 3.3 Technology and Equipment

### 3.3.1 Fundamental Principles

The fundamental principles that IPC is promoting regarding the evolution of equipment used during IPC Competitions are:

- (a) **Safety** (i.e. to the user, other competitors, officials, spectators and the environment)
- (b) **Fairness** (i.e. the athlete does not receive an unfair advantage that is not within the “spirit” of the event they are contesting)
- (c) **Universality** (e.g. commercially available to all not just selected athletes or countries)

- (d) **Physical Prowess** (i.e. human performance is the critical endeavor not the impact of technology and equipment)

Note: The IPC is currently investigating ways to standardize equipment and establish valid and reliable methods for testing to regulate equipment.

These principles apply in particular in relation to the development of:

- Sports specific prosthesis
- Materials for Throwing Poles and Frames
- Wheelchair componentry

### **3.3.2 Monitoring of the use of technology and equipment**

The IPC Athletics Technical Delegate, or his designee, will monitor the use of technology and equipment at IPC Athletics Recognized Competitions so that it should not give an athlete an unfair advantage over their peers. This monitoring may include the assessment of:

- (a) Unrealistic enhancement of height of release in throwing events;
- (b) Unrealistic enhancement of stride length;
- (c) Whether or not equipment and/or prosthetic components are commercially available to all athletes (i.e. prototypes that are purpose built by manufactures exclusively for the use of a specific athlete should not be used at IPC Athletics Approved Competitions); and
- (d) The use equipment using materials that store energy and/or are designed to provide function to enhance performance beyond the capacity of an “able-bodied” athlete

### **3.3.3 Prohibited Technology**

Use of the following technology is prohibited at IPC Athletics Recognized Competitions:

- (a) Equipment that results in athletic performance being generated by machines, engines or robotic mechanisms; and
- (b) Osteo-integrated prosthesis.

The IPC Athletics Technical Delegate should report to IPC Athletics any instances about which they are concerned regarding potential breaches of the above. The IPC Athletics Sports Manager upon receiving such a report should refer the matter to the Sports Technical Committee and the IPC Medical & Scientific Director for further investigation and action on a case by case basis.

## **4 CHAPTER 4 - DISPUTES**

Generally, IPC Athletics agrees with and aspires to follow the spirit of the contents of Chapter 4 in the 2010-11 IAAF Competition Rules relating to disputes between athletes and others. Where these 2010-11 IAAF Competition Rules can be followed, members should do so, and IPC Athletics will cooperate with the International Paralympic Committee in ensuring fairness for any athlete in dispute.

### **4.1 IPC Anti-Doping Dispute Procedures**

IPC Anti-Doping dispute resolution procedures are contained in the IPC Anti-Doping Code. For detailed information regarding the current IPC Anti-Doping Code refer to the IPC website: [www.paralympic.org/anti-doping](http://www.paralympic.org/anti-doping)

### **4.2 IPC Classification Dispute Procedures**

IPC Classification dispute resolution procedures are contained in the "IPC Board of Appeal of Classification" section of the IPC Handbook. For detailed information regarding the current IPC Handbook refer to the IPC website: [http://www.paralympic.org/IPC/IPC\\_Handbook/](http://www.paralympic.org/IPC/IPC_Handbook/)

### **4.3 Dispute Procedures at IPC Athletics Recognized Competitions**

As part of the IPC Athletics Competition Approval Process the Local Organising Committee (LOC) in consultation with IPC Athletics and/or the IPC will stipulate the specific dispute procedures for the following IPC Athletics Recognized Competitions:

- (a) Paralympic Games
- (b) IPC Athletics World Championships
- (c) IPC Athletics Regional Championships
- (d) IPC Sanctioned Competitions
- (e) IPC Athletics Approved Competitions – International or National competitions for Athletes with a Disability

For information regarding the dispute procedures for a specific competition please liaise with the respective Competition Manager and/or the IPC Athletics Technical Delegate.

### **4.4 Dispute Procedures at IPC Athletics Approved Competitions - IAAF / NF Endorsed Competitions**

For events for Athletes with a Disability incorporated in IPC Athletics Approved IAAF / NF Endorsed Competitions dispute procedures

contained in Chapter 4 of the 2010-11 IAAF Competition Rules should be applied in conjunction with any specific variations of these rules stipulated by the Local Organising Committee (LOC) and/or the Federation endorsing the competition.

At IPC Athletics Recognized competitions only finalists are eligible for medals even in events where there are only 4 finalists (i.e. T11-12 100m, 200m or 400m or wheelchair relays). Consequently in events where there are four (4) finalists and two (2) or more disqualifications occurred during the final only the “non-disqualified finalists would receive medals (i.e. the full set of medals would not be awarded).

Note: “B” Finals are no longer required under IPC Athletics Rules. Local Organising Committees should use their discretion whether or not to hold “B” Finals.

Note: For wheelchair relays and relays for Sports Classes T11-13 (i.e. involving Guide-runners), where it is required for the relay to be run in lanes, each team shall be allocated two adjacent lanes. The athletes may use either of their two allocated lanes. The lines on the inner of the two allocated lanes shall be extended across the outer of the two allocated lanes to mark the distances of the stages and to denote the scratch lines. Changes will take place as for lanes 1, 3, 5 and 7. The extension of start and exchange box lanes should be done with tape of the same colour and width as the existing lane markings.

### **5.19.3 Rule 170.7: Wheelchair Relays 20m Take-over Zone** (Sport Classes T32-34, T51-52 & T53-54)

Note: In wheelchair relay races of 4x100m and 4x400m members of a team, other than the first athlete, may commence pushing not more than 20m outside the take-over zone. A distinctive mark shall be made in each lane to denote this extended limit.

### **5.19.4 Rule 170.13 & 170.14: Wheelchair & Amputee Relays Take-over by Touch** (Sport Classes T33-34, T42-46, T51-52 & T53-54)

**5.19.5 Rule 170.19: Baton Exchange for T11-13 Relays**  
(Sport Classes T11-13)

- (a) Either the athlete or the Guide-runner can carry the baton.
- (b) The baton exchange may take place between either Guide-runners or athletes without restriction, except that the conditions of the method of guidance as per Rule 144.2(c.7) must be met (i.e. athlete and Guide-runner must be within 0.5m of each other).
- (c) The Guide-runner must be behind the athlete at the moment of entering the exchange zone.
- (d) A fair exchange is established when the baton carrier passes the baton to the baton receiver within the Take-Over Zone.
- (e) The outgoing athlete and their Guide-runner must both be inside the exchange zone at the moment when the baton is exchanged.
- (f) Once the outgoing runner leaves the take-over zone they cannot re-enter the take-over zone to receive the baton (i.e. if they go too early).
- (g) One (1) Guide per Exchange Zone will be allowed on the track to help with the positioning of any T12 athlete competing without a Guide-runner. The Guide must remain in a position which does not interfere with the conduct of the race.

## **SECTION IV - FIELD EVENTS**

### **5.20 Rule 178: Secured Throwing Requirements** (Sport Classes F31-34, F51-58)

#### **5.20.1 Rule 178.1: Throwing Frame Specifications**

- (a) The maximum height of the throwing frame including the cushion(s) used as a seat shall not exceed 75 cm.
- (b) Footplates if used are for support and stability only.
- (c) Footplates to be placed on the ground and to secure the contact foot are allowed, but should not provide height advantage. The height of these footplates must not exceed 1 centimetre.
- (d) Side rests for safety and stability may be attached to the seat. The frame may have a holding bar that does not have any articulation or joints
- (e) The frame may have a holding bar made of metal , fibreglass or similar but must not have any articulation or joints.
- (f) All parts of the frame must be fixed. Assistance to the athlete by flexible jointed parts is not allowed.

#### **5.20.2 Rule 178.2: Throwing Frame Measurement and Inspection**

Throwing Frames will be measured and inspected in the Call Room or at the competition area prior to the commencement of the event. Once it has been measured and inspected an athlete's Throwing Frame must not be taken from the competition area before the start of the event. Throwing Frames can be re-examined by the officials before, during or after the event.

Note: Measurement will always take place without the athlete sitting in the frame.

#### **5.20.3 Rule 178.3: Athlete's Responsibility for Throwing Frame Compliance**

It is the responsibility of the athlete to ensure that their Throwing Frame conforms to the requirements stipulated above. No event shall be delayed while an athlete makes adjustments to their throwing Frame.

#### **5.20.4 Rule 178.4: Secured Throwing Competition Area** (Sport Classes F31-34, F51-58)

All Secured throwing events should be conducted from a circle, diameter 2.135m to 2.50m, into a sector as described in Rule 187.

Movable platforms can be used at the discretion of the Technical Delegate. The platform does not have to be a full circle, but in these

circumstances the front arc or semi circle must be designed to give the same effect of throwing from a circle, diameter 2.135m to 2.5m and not alter the angle of the sector.

**5.20.5 Rule 178.5: Positioning of the Frame**  
(Sport Classes F31-34, F51-58)

When positioning and securing the throwing frame inside the competition area all parts of the throwing frame, holding bar and footplates must remain inside the vertical plane of the rim of the circle throughout the trial.

**5.20.6 Rule 178.6: Time Allocation for Securing Frames**  
(Sport Classes F31-34 & F51-58)

A reasonable time will be permitted for an athletes frame to be placed in the circle before the commencement of their first trial. This time should not normally exceed:

- (a) 2 minutes for Sports Classes F32-34 and F54-58, or
- (b) 3 minutes for classes F31 and F51-53.

Note: While the responsibility for tying down rests with officials and volunteers, the Technical Delegate will issue specific interpretations at each competition which ensure athletes do not engage in time-wasting tactics.

**5.20.7 Rule 178.7: Holding Device Failure**  
(Sport Classes F31-34, F51-58)

If a holding device should break or fail during the execution of a throw then the overseeing official should:

- (a) If the athlete does not foul, offer the athlete the option of re-taking that trial (i.e. if the athlete is happy with the distance and they haven't fouled then the athlete has the option of counting the affected trial), or
- (b) If the athlete fouls then the trial should not be counted and the athlete should be allowed to retake the affected trial.

**5.21 Rule 179: Secured Throwing Technique, Lifting & Fouling**  
(Sport Classes F31-34, F51-58)

**5.21.1 Rule 179.1: Secured Throwing Technique for F31-34 & F51-58**

Athletes can use their leg or legs during the throwing action, providing they maintain a sitting position. Note: The intended "sitting position" is for at least one buttock to be in contact with the seat of the frame whereby the athlete would be able to balance if they were asked to lift

their feet off the ground. Athletes also have the option of finishing the throw or put in an upright position providing they:

- (a) Maintain a sitting position on their throwing frame until the first forward movement which results in the release of the implement (i.e. any preliminary swings or rocking movements must be done from a sitting position).
- (b) Maintain foot contact with the ground inside the circle until after the implement has been released.

Note: The intended “foot contact with the ground” is for at least the ball of the foot to be in contact with the ground inside the circle. The contact foot can turn as per an “able-bodied” active foot action, but it cannot lift or step until the throw has been released.

- (c) The contact foot may be secured to the ground by strapping or a foot plate, but the thickness of the plate must be  $\leq 1\text{cm}$ , so that it does not provide a height advantage to the athlete. Any foot-securing device must only be at ground level flat to the ground and must not increase the height of release of the implement (e.g. by throwing off raised footplates and the like).
- (d) The non-contact foot is free to move within the throwing area as defined by the rules of the event (i.e., the athlete may step into the throw with the non-contact foot);

Note: If an athlete presents with an anatomical limitation that prevents them adhering to the above requirements (e.g. a bilateral amputee), then an assessment will need to be made by the IPC Athletics Technical Delegate in consultation with the Chief Classifier, if a Chief Classifier is available, that the athlete is throwing within the spirit of the rules.

## **5.22 Rule 180: General Conditions (Field Events)**

### **5.22.1 Rule 180.3 (c): Markers** (Sport Classes F11-12)

During Jump Events athletes in Sports Classes F11 can be accompanied onto the field of play by two (2) persons to:

- (i) act as a caller (i.e. instead of markers) to provide acoustic orientation during the approach run in High Jump, Long Jump and Triple Jump, and/or
- (ii) assist in positioning the athlete on the runway .

During throwing events athletes in Sport Class F11 can be accompanied onto the field of play by one (1) person only to act as caller and/or guide

In Sports Class F12 only one(1) person can accompany an athlete onto the field of play to act as caller and/or guide for all Jumping and Throwing Events.

Note: The caller must stand in a position that does not hinder the officials. The caller must not run along-side or behind the athlete during a trial.

Note. Some Class 35-38,42-46 and 20 athletes may require assistance in setting their runway markers prior to the competition. This would also apply in the javelin. The Technical Delegate will provide the appropriate athletes with a document on which to show their requirements.

**5.22.2 Rule 180.5 (c): Six (6) Throws in Succession Option**  
(Sport Classes F31-34, F51-58)

Note (iii): In competitions other than Paralympic Games or IPC Athletics World Championships, the Technical Delegate may decide, in cooperation with the Competition Organizers, to stage six (6) throws consecutively. The Technical Delegate may, to guarantee a quick conduct of the event, also decide this in a competition with more than eight (8) athletes. In that situation all athletes will have six (6) attempts. The Technical Delegate may not decide this in case the first three (3) Rounds are held in two or more pool

**5.22.3 Rule 180.5 (d): Reverse Order Procedures for Secured Throwing Events**  
(Sport Classes F31-34, F51-58)

During Secured Throwing Events no reversal of throwing order will take place after the 3<sup>rd</sup>, 4<sup>th</sup> or 5<sup>th</sup> rounds except:

(i) where the first three (3) rounds are held in two or more pools. In such circumstances the final three (3) Rounds will be held in reverse order of performance up to that point.

(ii) in competitions where the Technical Delegate decides not to stage six (6) attempts consecutively (see Rule 180.5 (c)).

**5.22.4 Rule 180.17: Orientation and Time Allocation**  
(Sport Classes F11-12)

Note (v): In field events where athletes receive assistance from Callers or Guides, the time allowed shall begin from the moment when the official responsible is satisfied that the athlete has completed the process of orientation. Should any athlete request verbal confirmation of the starting of the timing clock; an official shall give such confirmation.

Note (vi): If the athlete loses orientation and requires to be re-oriented, the clock shall be stopped and only restarted (to include any elapsed time already recorded) once orientation has again been completed.

**5.22.5 Rule 180.18: Change of Competition Area**  
(Sport Classes F31-34 & F51-58)

In relation to Secured Throwing events the second sentence in IAAF Rule 180.18 should be deleted.
